### **Directions to Pollo Rico Latin Bistro**

Pollo Rico is located at 2435 Middle Country Road (Rte. 25), Centereach. Probably the simplest way to get there from the LIE is to take Exit 62 (Nicolls Road) and go north on CR 97 (towards Stony Brook). Continue north for about 3 miles then take the exit to Rte. 25. At the traffic signals at the end of the ramp go left and head west (Smithtown). The restaurant will appear after about 1.5 miles, on the right side of the highway. Their telephone number is 631-471-0585. Their website is: <http://www.polloricolatinbistro.com/> .

## The Speaker

Noel Gibilaro has an undergraduate degree in Human Services, (1987) from New Hampshire College, Manchester, NH, and since 2012, functions as a Customer Relationship Specialist at Hitemco, LLC, Old-Bethpage, Long Island, NY, for Thermal Spray Coatings. He travels from his CT residence to maintain and grow a national customer base. Along with Thermal Spray, his previous experience in Liquid Chemical Plating, PVD, Solid Film Lubricant, and Specification Paint, allows a unique understanding of multiple coating functions. Combined with previous employment at a well-known, Long Island, NY, Thermal Spray Equipment and Powdered Materials manufacturer, a now cumulative total of 25 years in Thermal Spray technology enables him to work with, understand, recommend, and help explore coating solutions for both new, and aerospace markets.

## The Topic

Presenting how Hitemco provides Diffusion and Thermal Spray Coatings with exclusive in-house Coating Grind services to the domestic USA, a few overseas countries, and additionally a mainstay for over 40 years; the local Long Island manufacturing community. We will look at varied market coating solution demands including a focus on coating services for Aerospace, both military and commercial. Also, to be discussed is the importance of using engineered, automated part handling systems that are coordinated with Robotic Coating Spray Cells, and complimented by an ever-expanding Grind service, creates the formula to provide outstanding customer value. Of mention will be how a highly trained Staff that is able to understand and use the rare combination of Physics, Chemistry, Metallography, Materials Science, Mechanical Engineering, Thermal Dynamics, Thermal Spray Coating Engineering, and IT skills, is required to consistently meet ever demanding coating specification requirements, while providing quality and service on an ever-improving level. We will also look at how Hitemco came about, what we evolved into today, our plan for the future, various Coating Systems and capabilities, along with a recent announcement.
