Directions to Pollo Rico Latin Bistro

Pollo Rico is located at 2435 Middle Country Road (Rte. 25), Centereach. Probably the simplest way to get there from the LIE is to take Exit 62 (Nicolls Road) and go north on CR 97 (towards Stony Brook). Continue north for about 3 miles then take the exit to Rte. 25. At the traffic signals at the end of the ramp go left and head west (Smithtown). The restaurant will appear after about 1.5 miles, on the right side of the highway. Their telephone number is 631-471-0585. Their website is: <http://www.polloricolatinbistro.com/> .

The Speakers

Lauren Asfour is a Project Engineer at Posillico, Inc., a civil construction company headquartered in Farmingdale, LI. She started at Posillico part time as an intern at their state-of-the-art soil washing facility while completing her Engineering Science Degree at Stony Brook University. She has been a full-time employee for 3 years, being responsible for the quality control of the recycled aggregate and water treatment facility on site.

Robert Tassej is the Facility Manager of the Posillico Wash Plant. He has been with the company for close to 10 years, starting as an intern, and eventually working to design and ultimately run the Wash Plant. He received a degree in Civil Engineering from Manhattan College and received his MBA from Hofstra University. His knowledge in the design and operation of Soil Washing facilities has allowed Posillico to explore new waste streams, and business opportunities throughout the country.

The Topic

The speakers will present an overview of the Posillico Soil Wash Plant – the largest, and most complex contaminated soil washing facility in the world. The facility is located in Farmingdale, NY, on the Posillico Materials campus. They will explain the processing of recycled civil materials, as well as both the analytical and environmental testing required to make a saleable and comparable product to virgin aggregate.
